ADMIN WORKSPACE

System overview

Detailed system metrics, task usage, fatigue trends, and performance charts are available in the dedicated analytics module for a focused administrative view.

Open System Analytics

View system-wide metrics, high-risk patients, most-used tasks, and core trend charts.

QUICK ACTIONS

System Analytics

Access the analytics module with system-wide charts and performance metrics.

Manage Doctors

Approve registrations, suspend or activate clinician accounts.

Manage Patients

Review and administer all patient accounts in the system.

Manage Departments

Create departments, assign clinicians, and review patient allocation.
